

REMARKS

Claims 34-51 and 54-61, as amended, appear in this application for the Examiner's review and consideration. Claim 34 has been amended for clarity as to the structure of the patch and the delivery of the active agent by diffusion. As no new matter has been introduced by any of these changes and additions, their entry at this time is warranted.

In view of the previously submitted comments and current claim amendments, it is respectfully submitted that the entire application is now in condition for allowance, early notice of which would be appreciated.

Respectfully submitted,

Allan A. Fanucci, Reg. No. 30,256
